

Territorial Items.

Globe Silver Belt.
It is said the San Carlos agency Indians are growing insolent, and that neighbors have been warned to be on their guard. About ten days ago a freighting outfit was stoned by Indians at the Point of Rocks on the San Carlos river. Freighters now camp three or four together as a matter of precaution.

Two silver nuggets found by Leroy Ikenberry at Richmond basin are on exhibition at Hitchcock's drug store. They weigh 6 1/2 pounds and are almost pure silver. Richmond basin is famous for its production of native silver. In the early years of Globe, nuggets to the value of \$100,000 or more were found there by the Chilson brothers and rich finds have been made from time to time since. Altogether the silver mines of Richmond basin have produced close to \$1,000,000, and with silver restored to its former price they would again be one of the large producers of the white metal.

In front of the White House school Sunday night James Higgins took a shot at R. Payne, who ran into the saloon and crouched behind the bar. Higgins' advance was stopped by Cooke, the dealer, who got the drop on him, and others disarmed Higgins. He was afterwards arrested, and Justice J. M. Jones, before whom the preliminary hearing was held, bound him over to the amount of \$1000 to await the action of the Grand Jury. As immorality and crime are said to be an affliction indication of prosperity, Globe must certainly be on the boom.

Surveyor General Geo. J. Raskrug and Miss Luna Wood, daughter of Probate Judge John S. Wood, were married at the residence of the bride's parents last night. The ceremony was performed by Rev. O. P. Wilson, of the Methodist Episcopal church, in the presence of a large number of friends of the contracting parties. Both Mr. and Mrs. Raskrug are too well and favorably known in this community to need words of eulogy. The wedding was a very happy affair. Mr. and Mrs. Raskrug will begin housekeeping in an elegant residence prepared by General Raskrug a year ago—The Star. It was understood in Phoenix at Mr. Raskrug had been married a couple of months ago, and when that gentleman was in Phoenix on his last visit he was tendered the congratulations of his numerous friends here, and accepted them with elegant grace.

COCHISE.
Prospector.
T. A. Dalton of Phoenix has been appointed Superintendent of Public Instruction vice F. J. Natherton resigned. Mr. Dalton was once a principal of our public school and is a good selection.

Nastam was seen leaving from the smoke stack of the Northwest hoist of the T. M. & Co. this morning. The cause of the cessation of work is the fact that the underground miners went on a strike. Before the miners returned to their usual labors this morning Foreman McCormick met with a statement from them that a raise of wages from \$2.50 to \$3 per day was wanted, which was also conveyed to Superintendent Gray and the miners' work until their demands have been considered while the mine shut pending further developments. Miners made their demand in a friendly spirit, no attendant excitement was created and the fact that the company have not attempted to replace the strikers it is probable they will gain their point or the matter be satisfactorily adjusted.

PIMA.
Tucson Star.
An accident happened to the work train engine No. 1711 yesterday. Fortunately no one was hurt. Engineer Ryan was on the throttle and Fred Armstrong kept it steady off the track. The wrecking train went out to the scene of the accident and it is said the damage is not very great.

"I notice by the papers," said an old-time miser yesterday, that they think they are going to have another boom at Tombstone. There is no other place I know of that deserves so much. If the first place there is no other spot town site in America and no other town in the United States that has such a system of water works. But then it is a boom time we don't need much water. The most thing about Tombstone was the estimation in which the citizens held each other. Every man was a friend and assistant of every other man. One in bad luck had no trouble in finding some one else to help him on his feet. There never was another such a camp.

Tucson Citizen.
The Old Glory Camp, which has been closed down for some time past, will soon be the scene of great activity, arrangements having been made for the immediate commencement of work. The company's fair has been in the hands of a receiver for some time, but a satisfactory settlement has been concluded by which Major E. Focht assumes full control. The Major informs the Citizen that before June 30th, a 30 stamp mill will be on the ground to replace the Griffin mill hereafter in use, and that not later than September first the merry rattling of the dropping stamps will give assurance that the Old Glory is again adding revenue to all concerned. Major Focht is confident that the improved methods of economical ore handling will secure paying returns, and his experience in such matters gives weight to his opinion.

YAVAPI.
Journal-Miner.
Cocoonino Democrats have elected the following delegates to their Territorial convention: T. S. Burch, E. J. Babbitt, H. E. Campbell, A. T. Cornish, M. Salz, M. F. McGill, and A. D. Ripley.

Prescott Courier.
The Salt River Valley and Phoenix in particular have an earnest champion every ready to stand up for them with his tongue and pen, both of which he uses most convincingly. He makes many dollars in his successful piano business, all of which he invests at home. His other name is A. Redewill.

A FREE GOLD MINE.

Located Near Yuma.—A 20 Stamp Mill Started Last Week.

It will Turn Out More Gold Than any Other Mine in the Territory.

The La Fortuna gold mine is located fourteen miles from Bisland station and about twenty-seven from Yuma, and in Arizona. The road from Bisland for about nine miles is heavy sand, when small hills of more solid formation is reached and continues to the mine. The mine is located in a small hill, off from the main range. The ground around this hill is almost level. A small wash runs at the base of this hill, on the northeast end where the ledge dropped.

The work on the La Fortuna consists of three levels. The first is down 65 feet, showing 14 feet of ore. A drift has been run last on this ore body 120 feet. On the second level, at a depth of 130 feet, the ore body is larger and shows 18 feet. One hundred feet of lifting has been done on this level. The third level is at a depth of 215 feet, with a gross cut showing ore body to be about 30 feet. The character of the ore or its value has not changed since work began from the surface. The quartz is equally divided between white and pink; the pink quartz seems to be the most valuable. The estimated value of the ore cut at \$40 per ton. The gold bars will be made so heavy that it will guarantee their safe delivery to the railroad.

The mill consists of 20 stamps, erected on the mine. The working shaft is on an incline of 60 degrees. The steam hoist operates a grizzly directly to the rock broken and then by gravitation to the stamps. The stamps weigh 1350 each. The frame work is the heaviest to be seen in the Territory. The runs are each 25 feet long and of very heavy plates. There is a drop after the first run, making 50 feet of plates to be run over. The engine is built in the mill for convenience and economy.

The water reaches the mine from the Gila river through a four inch pipe 12 miles long, at an elevation of 650 feet. El. Wiggins runs the pump at the river.

There are eight other claims belonging to the La Fortuna group. On two of them work has been done that shows well, but the veins are small.

There is sixteen men employed in the mine. Robert M. Straus is the Superintendent and was instrumental in getting Lave & Hayward to bond the La Fortuna. Joseph Golden is foreman.

Messrs. Straus and Golden were with the Harkness Hauls Company at one time. J. C. Carpenter is the chief foreman. H. McCune, formerly of Mesa, is associated with J. C. Carpenter in furnishing a comfortable resort and refreshments for the boys.

Dan D-vore furnishes the wood, allowing 3200 lbs. for a cord, and receives \$3.

John Doran, son of District Attorney Doran, of Pinal county, is in charge of the mine. Mr. Doran is well liked by his patrons.

The youngest engineer to be seen in the country is at the day boat of the La Fortuna. He is the son of Millionaire Laga, and would rather be around a mining camp than go to school. A depot has just been completed at Bisland.

There are no accommodations at Bisland, but when a mail route is established from Bisland a hotel will be built. Probably within thirty days people can be accommodated.

Dan D-vore, of Yuma, is now running conveyances from Yuma.

THE SMITH KILLING.

John R. Smith Shot and Killed by a Late Gibson.

Life Gibson and John R. Smith, cowboys on Eagle Creek, became involved in a quarrel a few days ago, when Smith gave Gibson a very severe punishment, at the same time warning him that if he left the ranch where they then were that he would kill him. Gibson, who is a young man about eighteen, saddled a horse and fled to the Hampton ranch about seven miles away, to which place he was followed by Smith on Friday last. Gibson ran into the kitchen and getting a rifle shot Smith as he came in the door after him. The affair was much deplored by all acquaintances with the parties. Smith had charge of the stock at the Hampton ranch and was a brother of Cap Smith, who had trouble with Mace Stauffer about a year ago when the latter was killed.

Gibson gave himself up to the authorities at Thomas where he was given a hearing before Justice Roshan Tuesday last, who bound him over to the grand jury in the sum of \$500,000, and on Wednesday took him to the county seat.

On arriving at Solomonville Judge Goodwin, Gibson's attorney, swore out a writ of habeas corpus before Court Commissioner Hyatt, and he was released from custody. Those acquainted with the circumstances say it was merely a case of self defense. Graham Guardian.

You're an Easy Prey.

With your flesh reduced below a healthy standard, for Consumption and other Scrofulous diseases, And for just this condition that Dr. Pierce's Golden Medical Discovery is especially valuable.

If you're thinner than you ought to be, whether from wasting disease, defective nutrition, or whatever cause, the "Discovery" will surely bring you up to the healthy standard. By restoring the normal action of the deranged organs and function, it arouses every natural source and means of nourishment. As a strength-restorer and flesh-builder, nothing like this medicine is known to medical science. Filthy Cod Liver Oil and all its disguised compounds cannot compare with it.

Dr. Pierce's Pellets cure constipation, indigestion, or dyspepsia, biliousness and headaches.

Are you made miserable by Indigestion, Constipation, Dizziness, Loss of Appetite, Yellow Skin? Shilo's Vitalizer is a positive cure. For sale at Keefe's Pharmacy.

Tempe Department.

From Saturday's Daily.
Judge Goodwin and Constable Bolton went to Phoenix this morning on business.

A car of lumber for H. W. Ryder and a car of local merchandise were received this morning.

The wife of Rev. Edwards presented her lord with a handsome nine-pound baby yesterday. All doing nicely.

The wheat on the Kingsbury ranch north of the river is almost ready for the sickle and the Mexicans are hard at work in the construction of their primitive threshing floors.

Caleb Perron recognizes only one legal holiday and its date is variable and fixed annually by the advance agent of Wallace's circus. Neither love or money would keep Freshy in Tempe next Monday. Of course he is too old to go to such things for his own amusement but you know "its such an education for the children."

Dolores Limon, a resident of East Tempe has inherited a thirst for blood from his Spanish ancestors whose vocation in the olden time was to wage deadly warfare against the sanguinary Moors. At times he shakes off the feeling of ennui induced by long rest in this peaceful locality and strapping on the accoutrements of war sallies forth to stir up rebellion and revel in carnage. About noon yesterday he armed himself with a time worn and time-honored axe and inaugurated a campaign against Rafael Gallardo. The agility of the festive Rafael however enabled him to thwart the movements of the enemy and retreat in good order thus preserving the entirety of his skin.

Dolores will answer to offended justice as represented by Justice Smith's tribunal, at two o'clock this morning.

This valley real Chinese household in the valley which seems to fill the requirements of a home as Americans are now to view this institution, was made happy yesterday by the arrival of a fine two-pound girl baby at the residence of Chang Sing. This is the second child of Mr. and Mrs. Sing, the first one having died some months ago, on which occasion Chang, who is a devoted parent, was almost prostrated with grief. The many friends of the Sing family, of all nations and colors, are profuse in their congratulations, and trust the hand of affliction may be spared from this, their latest joy. Unlike many of their race, Chang and his wife are trying to take advantage of American customs and mode of life, and heartily appreciate the interest taken in them by their neighbors.

Mesa Notes.

A. J. Doran, accompanied by experts, has returned to Goldfield to view the Bull Dog mine.

Three cars of lumber have been ordered by C. L. Hall for the Mammoth mine, which is running regularly.

Wilbur and Able are putting up a warehouse on Main street 50x150 in size.

The bicycle agency seems to be doing a good business for the size of the town.

The freight business of the new railroad is rapidly increasing. Mesa should have stockyards and try and secure a portion of the south side cattle shipments.

This is the busy season for the farmers and fruit growers and though the town looks quiet considerable business is being done.

Geo. Barrett's new building has been at a standstill for some time awaiting the iron for the front. The walls of the cellar are completed and its methods of ventilation are something new in this country and worthy of investigation by those who contemplate building in the future. The cellar will be arched over with brick so as to be perfectly fireproof, in fact just such an apartment as the author of "Looking Backward" would want in which to take a dreamless sleep for a hundred years. If the superstructure is finished as completely as the basement has been it will be as good a building as any in the valley, though not as large as some of the Phoenix houses. The dimensions are 30x100 and it will be two stories above the basement.

From Monday's Daily.
Rev. A. B. Tomlinson, is confined to his bed.

A. O. U. W. met tonight for work in the initiatory degree.

George W. Toomey, of Keneshaw, Wisconsin, A. W. Gill, Phoenix, Arizona and T. E. Rinehart, San Francisco, are registered at the Tempe hotel.

A couple of stockmen exchanged complimentary observations regarding each other's life and character near the Hudson corner on Saturday. Resolutions of belligerence were introduced by a majority of two to nothing and all difficulties will be settled by arbitration.

The day of all days, the climax of all climaxes has arrived and everybody has gone to the circus. The ring tailed coon and the hump backed camel are keeping open house and the big elephant and crocodile lion in receiving while Tempe adds dignity, wealth and beauty to the vast multitude of guests.

From Tuesday's Daily.

Mrs. W. J. Kingsbury is spending the day in Phoenix.

A. P. Showman, of Mesa, went to Phoenix this morning.

H. B. Moore is serving his country on the jury this week and settling other people's troubles at so much per day.

Arrangements are being made for the shipment of a train load of feeders to Emporia, Kansas. Kansas corn makes an excellent dessert for livestock about a season or two on Salt River valley alfalfa.

Telegrams were received yesterday announcing the sad news that the aunt and mother-in-law of Mr. Frank Sawyer were killed in the recent Kansas cyclone.

Alex Walvern, the Florence stage man, is in Tempe again today.

Some people have to hustle to get money to go to the circus; some people go to the circus and spend all they have, whatever the amount, but Freshy goes and spends all he wants to and has money left. His system is worth studying.

Rev. Jao. Waldie will preach in the Baptist church tomorrow night. Merchant J. M. Lile, of Florence, is paying Tempe a visit.

Odd Fellows meet tonight in Andre's hall.

MESA GLEANINGS.

People and Things About That Beautiful Little City.

An hour's ride on the train due east from Phoenix brings one into the charming paradise of Mesa City, a veritable Garden of Eden, where the tourist can rusticate to his heart's content.

Friday night, the usual weekly dance at the Co-op. Hall was crowded and Mesa certainly can hold her own for beauties.

The Lorraine troupe under the management of Charley, played the laughable drama "Jane" at the Mesa opera house Saturday night. Come again after the harvest and we will try and do better. We were unable to attend on account of an *appon-dulic*.

The steel turn out among the Mesa men is on the ground. This building will be one of the finest in the southwest when completed.

Quite a large turn out among the wheel men here Sunday. The amateur coaches were hard at it and Mesa will in all probabilities turn out some record-keepers in the near future. The youngsters are strictly in it when it comes to *biking*. Phoenix amateurs look out.

William Avery, the popular salesman of the Bee Hive store, was seen leisurely perambulating around the burg during the cool of the evening on a high grade.

Ross Sallare, commonly known as (the man with the pretty wheel) leaves today for the enterprising camp of Goldfield.

Mesa strawberries disappear as fast as they arrive in town. They can't be best for their sweetness.

The new store house of Mr. Wilbur is being completed. Workmen are about to start on the iron roof.

One thing that we can also boast of for Mesa is that there is not an idle man at present around town as there is plenty of work for those that want to tackle the harvest field. TENDERFOOT.

Mesa, May 18, 1896.

NEWS FROM GLENDALE.

Many Persons Employed Packing Apples for Shipment.

GLENDALE, May 15.

Packing of apricots for shipment in our lots began here this morning. Preparations have been making for several days past, so that operations were commenced without unnecessary delay. At present about thirty hands are employed in the packing house, besides the boxmakers and as many more in the orchard, picking and hauling. The force will be increased as necessity requires. Most of the pickers are women and girls, as it has been found that they do the work better and faster than men. There will probably be plenty of work next week for all who apply as the fruit is ripening rapidly. Some delay has been experienced in obtaining oranges but several are expected tonight. One will be shipped tomorrow and thereafter at least one a day until the crop is exhausted. Mr. Eastman has general charge of the packing and shipping, and in the packing house Chas. U. King, who was here last season with C. B. J. Jones, oversees the pickers, and W. D. Tanner, from the Phoenix office of the Improvement Company, keeps the time of the pickers. Most of the fruit comes from the Improvement orchard, though considerable will be hauled from the K. and Evans ranches east of here.

The Improvement Company received a case of box material and baskets from the Sugar Lumber Company yesterday.

DeMund Brothers hauled a load of crates and baskets from here yesterday.

The Presiding Elder of the Board of the Methodist church is visiting C. T. Rast today. He will take part in Pastor Cook's reception at the school-house tonight. Refreshments will be served and a short program presented and a pleasant time is anticipated.

L. L. Plank drove up from Phoenix today with a gentleman from Indianapolis, Ind., who is looking over the valley, to inspect the fruit packing in progress.

Geo. Christy drove up from Phoenix yesterday on business.

Next week promises to be a busy one for the railroad. Besides the heavy fruit and hay shipments, Jerry Sullivan expects to ship several trainloads of cattle to Kansas, and others will ship stock. The railroad company is to be congratulated on having so efficient and accommodating an agent as Mr. Winslow, who is equal to any emergency that may arise in their increasing business at this point.

Frank Lower, a cattle-buyer from Council Grove, Kansas, shipped seven loads of feeders Wednesday for Brigham & Hicks. Mr. Lower is an old friend of our townsmen J. B. Donner.

J. W. Sullivan shipped a car of cattle this morning to Kansas. N. T. Frankin went with it. Mrs. Franklin expects to join him with the children in a week or so. They will spend the summer in Kansas.

Hay is moving out at an encouraging rate. Eight cars were shipped last week and two more are on the track ready to ship.

Glendale promises soon to be a mining town of no mean importance. Postmaster Humphrey has several rich claims north of here about thirty miles, and J. Williams will leave in a few days with an outfit to develop them.

The opening of the fruit season has created a temporary stringency in the labor market. Several were hunting for work and could not find them, and yet the pestiferous hobo seems to be as much in evidence as ever. Hunting for work has evidently ceased to be a characteristic of the tramp, and the proper prohibitive measures are adopted in knocking that scourge the better it will be for everybody.

From Monday's Daily.
Miss Sallie Osborn, the obliging general delivery clerk at the postoffice, who has been absent for some time on a vacation, returned this morning and is again at her window in the postoffice.

From Tuesday's Daily.
Mrs. W. J. Kingsbury is spending the day in Phoenix.

A. P. Showman, of Mesa, went to Phoenix this morning.

H. B. Moore is serving his country on the jury this week and settling other people's troubles at so much per day.

Arrangements are being made for the shipment of a train load of feeders to Emporia, Kansas. Kansas corn makes an excellent dessert for livestock about a season or two on Salt River valley alfalfa.

Telegrams were received yesterday announcing the sad news that the aunt and mother-in-law of Mr. Frank Sawyer were killed in the recent Kansas cyclone.

Alex Walvern, the Florence stage man, is in Tempe again today.

O. F. Townsend, Wells Fargo's Express Agent at Yuma, passed through to Phoenix on the morning train. It is his first visit to the Capital city in seven years.

ARCADIA.

Interesting Paragraphs.

From Saturday's Daily.
Mr. Wm. Farr, the Albuquerque butcher, this morning shipped two cars of fat cattle to that place.

The brick are being piled up in quantities about the site of the Adams hotel now in course of construction.

Probate Judge Crouse this morning appointed Mr. S. R. Wallace administrator of the estate of Mrs. Mary F. Wallace, his deceased wife.

Seven members of the Kentucky excursion party who have been looking over the valley for some time past left this morning for home.

Probate Judge Crouse this morning appointed Mr. J. L. Redondo guardian of the person and estate of the minor children of the late Henry Garlis.

Mr. W. E. Defty arrived yesterday from Los Angeles where he is now connected with Llewellyn Iron Works. He will return to Los Angeles a couple of days.

The Carpenters' Union will hereafter meet every Tuesday night in armory hall in the basement of the Young building, corner Center and Jefferson streets.

From the Tombstone Prospector we learn that Mr. Geo. Spangenberg who kept a gun store in Phoenix is located at Seattle where he has worked up a splendid business.

Mr. Ed. Eselle, of the Phoenix Bakery, has got the African fever and as soon as he can make the necessary arrangements he intends joining Mr. M. E. Hurley at Johannesburg.

Sherriff Orms left last evening with Fred Miller who plead guilty to grand larceny for stealing horses and was sentenced to one year in the penitentiary at Yuma where he will serve his time.

Two young couples were made happy this morning by Probate Judge Crouse who issued to them marriage licenses. They were Robert N. Stupley and Susan Vance, and Jose Vidal de Hada and Eufrosina Acosta.

It is understood that a change of time will soon be made on the S. F. & P. road whereby the train from the north will reach Phoenix about six o'clock in the morning and leave Phoenix for the north in the evening.

The last vestiges of the old Fugate stable on Center street north of Adams disappeared this afternoon. Business buildings will shortly cover the ground and Center street will become one of the principal business streets of the city.

The Odd Fellows of Glendale will institute a lodge at that place on the 25th of the present month. A large number of Odd Fellows from various portions of the Territory are expected to be present and assist in the institution exercises.

The Herald today closed out the largest advertising contract ever placed in Arizona, and the enterprising firm will soon begin to run their matter. Advertisers who want to advertise for business and consequently to reach the most people always choose the HERALD.

The first carload of apricots left Glendale this afternoon by special train and will make connections at Ash Fork with the through east bound express and reach Chicago in four days. From now on until the crop is entirely disposed of it is expected that a car a day will be shipped to the eastern markets.

Dr. J. M. Ford and Hon. J. A. Fleming returned this morning from Globe where they have been examining some important mining properties, and though the gentlemen refuse to make public the result of their investigations it is understood that they were highly satisfactory and that within a short time the properties will change hands.

Deputy U. S. Marshall Slackard returned this morning from Florence where he had taken Mr. I. D. Ford, of Maricopa, whom he had arrested on a charge of selling liquor to Indians. The prisoner was placed under heavy bonds and he was furnished and was allowed his liberty pending the action of the United States Grand Jury.

The following officers were elected to day at the session of the Grand Lodge of the Knights of Pythias, at Prescott: G. O. Gadsby, of Kingman, G. C. J. B. Hayes, of Tucson, G. V. C. H. Hooker, Pount, of Pinal; H. Drachman, Tucson, G. K. R. S.; Mr. Knobloch, Prescott, G. M. at A.; J. Duke, Flagstaff, G. I. G. Mr. Brown, Williams, G. O. G. The next session of the Grand Lodge, will be held at Kingman next year.

Mr. Chas. Wing of Lehi swore out a warrant against Robert Mattison this morning on a charge of receiving money under false pretenses. The complaint sets forth that Mr. Wing purchased some goods of Mr. Mattison for which he was to pay fifty dollars and that at the time of the bargain Mr. Wing paid ten dollars to bind the bargain. Since that time Mr. Wing has tendered to the plaintiff the balance of forty dollars on several different occasions, but that gentleman refused to accept it and turn over the goods or even to refund the money paid. Justice Johnston discharged the defendant.

Dr. Ford, who returned today from a visit to Globe is confined in his room as the result of injuries sustained in a runaway while crossing the San Carlos reservation in a stage on the return journey. The team became unmanageable and ran away and all the occupants jumped. Mr. Ford in jumping became entangled in some way and seriously injured his left leg. As he has traveled continuously ever since without proper attention the wounded limb is so badly swollen that it is impossible for the physicians to determine the full extent of the injury. It is known that the ligaments are torn but whether any bones are broken or not cannot be determined as yet. The doctor was also bitten on the face by some poisonous insect with the result that his face has swollen and broken out in big blisters.

Dr. Ford, who returned today from a visit to Globe is confined in his room as the result of injuries sustained in a runaway while crossing the San Carlos reservation in a stage on the return journey. The team became unmanageable and ran away and all the occupants jumped. Mr. Ford in jumping became entangled in some way and seriously injured his left leg.
